EXPERIENCE

Front-end Developer Nov 2024 – Present

Lucent Innovation, Ahmedabad

- Built production-grade UIs using React.js and Next.js for multiple live client products.
- Implemented Redux Toolkit and React hooks for scalable state management across 20+ components.
- Applied lazy loading, code splitting, and memoization — reducing initial bundle size by ~30%.
- Integrated 15+ RESTful APIs using Axios to render real-time data on interactive dashboards.
- Worked in Agile/Scrum team with designers and back-end developers to ship features on schedule.

Front-end Developer Aug 2023 – Oct 2024

Kamadgiri Software Solution, Chitrakoot

- Developed 5+ fully responsive React.js apps with cross-browser compatibility across all devices.
- Used React hooks (useState, useEffect, useCallback, useMemo) for state and side effect management.
- Refactored legacy components, eliminating unnecessary re-renders and improving page load speed.
- Converted Figma mockups into pixel-perfect UI components using Tailwind CSS and SCSS.
- Integrated third-party APIs with async data fetching, error handling, and loading state management.
